Dental Practitioner and Examiner MJDF(UK)

---

## The meetings

### Venue

- ▶ MANDEC, Higher Cambridge Street, Manchester

### Times

- ▶ Monday evenings from 6.15 to 9.15
- 

## Course fees

### The course fees include:

- ▶ The CDROM
- ▶ All lecture programmes
- ▶ Mentoring of coursework
- ▶ Access to the delegates webpage
- ▶ Mock examinations
- ▶ Handouts
- ▶ Local assessment of coursework
- ▶ A buffet meal at each meeting

### The course fees do not include:

- ▶ Faculty membership
  - ▶ Faculty examination fees
- 

## Curriculum lectures

These one hour lectures recognise the joint syllabus with dentists from the hospital and community services. The intention is to directly address those areas which are out of the usual comfort zone of the general dental practitioner such as oral medicine, sedation, paediatric dentistry etc. These curriculum lectures will be delivered by national or international experts in their fields. Objectives for the curriculum lectures are to:

- ▶ Outline the syllabus in the area
- ▶ Suggest source material for study
- ▶ Suggest sample questions and answers
- ▶ Outline latest developments which may not be found in textbooks

Those areas which are more in the usual compass of general practitioners will be dealt with in the context of treatment planning as a whole, for example, endodontics, crown and bridge work, the restoration of teeth, dental materials etc.

---

## Course work

Lectures will be provided on each aspect of the MJDF coursework. Mentoring of delegates' course work will also take place throughout the evening by the course mentors. Feedback will be given to delegates at the end of each meeting. Local assessment will be by a separate panel of assessors. In this way we will provide delegates with all the paperwork needed to register successful completion of coursework with the Faculty. The system will allow assessment of coursework after the course has finished if candidates wish to delay completion of these parts of the examination. For those candidates who have completed the coursework before the end of the course there will be assessments during the evenings of the last two sessions. These will be available by booking in advance.

---

## Mock examinations and workshops

At the end of the course practice will be given in the part two examinations:

- ▶ OSCE's (Objective structured clinical examinations)
  - ▶ SCR's (Structured clinical reasoning tests)
- 

## Course CD

A comprehensive CD ROM will be given to each delegate. The course CD contains:

- ▶ Examples and templates for key skills documents
  - ▶ Advice, background and examples for the clinical audit project
  - ▶ Example case studies with examination proformas and treatment planning advice
  - ▶ Advice documents for critical reading
  - ▶ Reading list
  - ▶ Advice documents for completion of personal development plans, CV etc
  - ▶ Example part 1 questions
  - ▶ Powerpoint files of lecture presentations
  - ▶ MJDF regulations
  - ▶ Application forms
  - ▶ Other information such as useful websites
-

---
